15 January 2018

Dear IAU General Secretary,

On behalf of Association of Canadian Ultramarathoners (ACU), I would like to support the candidature of Nadeem Khan as President of the IAU.

Mr. Khan is currently serving as interim President and has served as Vice-President, Director of Communications and Chair of the Medical Committee. During that time, he has been very active in promoting the IAU, securing future World Championships and contributing to the restructuring of the IAU. The experience gained in his current positions will be an asset for the official transition to the President position.

He has built important relationships with several federations, team management and athletes, working together to take the sport to the next level. Furthermore, his positive attitude towards the advancement of the sport of ultrarunning will further it in the future,

Important fact, he is well known and respected by elite runners from different countries because he had the chance to train and races with many of these runners. Without doubt, it would be a definite asset to have Nadeem Khan as President of the IAU.

His attitude, leadership, and opening on the world, makes him a great candidate. So once again, we warmly recommend Mr. Nadeem Khan for IAU President.

Yours in sport

Armand Leblanc
- President
Association Canadian of Ultramarathoners (ACU)
